Administration**

Funding Disclaimer

This document was prepared and published by the Jackson Metropolitan Planning Organization (MPO) and is prepared in cooperation with and financial assistance from the following public agencies: the Mississippi Department of Transportation (MDOT), the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) under the Metropolitan Planning Program. The contents of this report do not necessarily reflect the official views or policy of the funding agencies.

Accessibility Statement

The Central Mississippi Planning and Development District (CMPDD) does not exclude, deny, or discriminate on the basis of race, color, national origin, ethnicity, immigration status, gender, sexual orientation, age, religion, creed, disability, or any other characteristic protected under applicable federal or state law in admission to, access to, or operation of its programs, services, or activities. CMPDD provides an equal employment opportunity to all its employees and applicants for employment. For all inquiries regarding the application of this accessibility statement and related policies please contact CMPDD's Human Resource Director: CMPDD 1020 Centre Pointe Blvd. Pearl, MS 39208 (601)981-1511.

ABOUT THIS REPORT

The annual listing of obligated projects is a record for tracking the progress of federally funded transportation projects included in the Jackson Urbanized Area's Transportation Improvement Program (TIP) and the Mississippi Department of Transportation's (MDOT's) Statewide Transportation Improvement Program (STIP). This listing is updated annually and is intended to increase public awareness of federal spending. Each project included in this report has received federal authorization for funds committed to the project to be obligated. Obligation of federal funds means that a project has received a federal commitment for reimbursement of the federal share of costs incurred for an approved project and does not necessarily mean that the project was initiated or completed in that year or indicate the total cost of that project. There are instances where funds obligated for a project may exceed the amount estimated in the STIP/TIP. There are also instances where unused funds may be credited back when not needed at the completion of a project phase resulting in a negative obligation or de-obligation. De-obligation of funds typically occurs when a project has been completed without using the full commitment of obligated funds. It can also occur if a project sponsor decides not to proceed with the approved project or if there is a funding source change for the project. In addition to projects obligated in Federal Fiscal Year 2021, this report includes projects from previous Federal Fiscal Years in which Federal funding remains and is still available for project completion. Obligation occurs for Federal Transit Administration (FTA) projects after a FTA grant has been awarded. This type of obligation occurs for Federal Highway Administration (FHWA) projects by phase when a project agreement is executed and FHWA authorizes the federal funds. A project agreement defines specific project elements that are eligible for funding; how financing will occur; and agency roles, responsibilities and liabilities.

As mentioned earlier, each project included in the report can be found in the MDOT's STIP or the Jackson Urbanized Area's TIP. A TIP is a regional planning document used by Metropolitan Planning Organizations (MPOs) that provides an overview of how transportation revenues will be invested over a four (4) year period by federal, state, and local agencies responsible for building, operating, and maintaining the multimodal highway, street and public transit system. The STIP, which is maintained in the state by the Mississippi Department of Transportation (MDOT) includes all transportation projects receiving federal transportation funding statewide including those in each MPO region across the state. Whereas the MDOT uses the STIP for the development of priority projects identified in the State's Long-Range Transportation Plan, MPO's use their TIP's for the selection of priority projects included in their Metropolitan Transportation Plans. The STIP and TIPs are also used as mechanisms for tracking the progress of those projects across the State as they advance through the project development process.

The Fixing America's Surface Transportation Act (FAST Act), signed into law on December 4th, 2015, requires that:

“An annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which Federal funds have been obligated in the preceding year shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review.” 23 CFR 134(j)(7)(B)

This report addresses these requirements by providing a listing of all transportation projects in the Jackson MPO's planning area in which Federal funds were obligated during Federal Fiscal Year 2021 (October 1, 2020 - September 30, 2021). The FHWA defines “obligated” as **“the federal government’s legal commitment (promise) to pay or reimburse the States or other entities for the Federal share of a project’s eligible costs”**. An “obligated” project is one that has been authorized by the federal government and funds have been obligated or approved for reimbursement.

THE JACKSON MPO

The Jackson Metropolitan Planning Organization (MPO) is a federally mandated planning body responsible for transportation planning in the Jackson Urbanized Area. Federal regulations require all urbanized areas with a population of at least 50,000 to designate a MPO to carry out the transportation planning process. The Central Mississippi Planning and Development District (CMPDD) was designated as the MPO for the Jackson Urbanized Area on February 5, 1975 and is responsible for coordinating the transportation planning process and programs for all county and municipal jurisdictions within the MPO's planning area which includes portions of Hinds, Madison and Rankin Counties.

The MPO is the lead agency responsible for developing and administering plans and programs to maintain eligibility and receive federal funds for the transportation systems in the Jackson Urbanized Area. The primary mission of the MPO is to develop and maintain a transportation planning process that is compliant with federal and state requirements and supports the development and enhancement of sustainable multimodal facilities, programs and systems in the area.

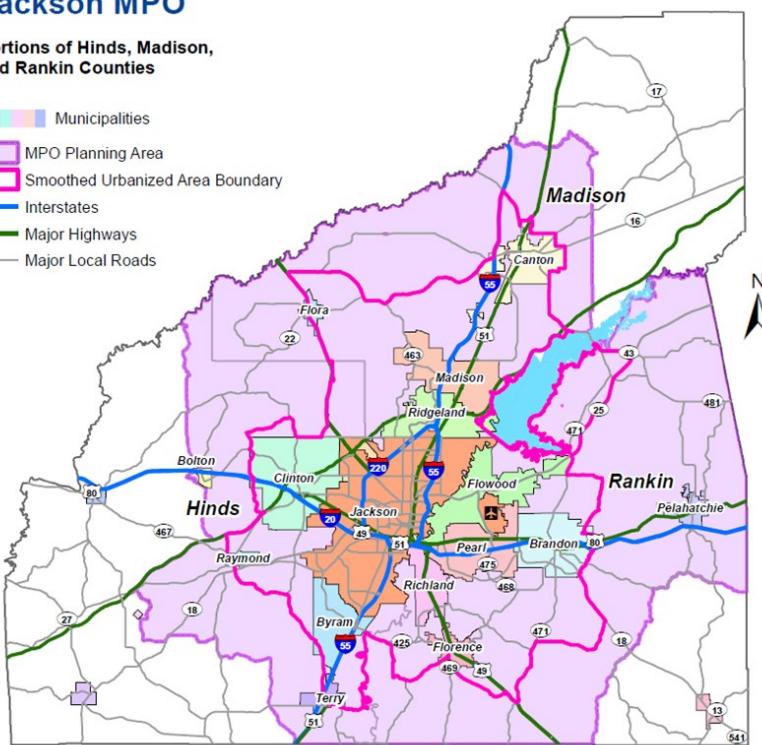

The Jackson MPO functions under a committee structure comprised of the Metropolitan Planning Policy Committee and the Intermodal Technical Committee. The Metropolitan Planning Policy Committee consists of elected and appointed officials representing the county and municipal jurisdictions located within the Jackson MPO planning area boundary (see map above), a public transit services representative and the Director of the Mississippi Department of Transportation (MDOT). This committee also includes the Division Administrator for the Federal Highway Administration (FHWA) in Jackson and the Regional Administrator of the Federal Transit Administration (FTA). This committee is responsible for making policy decisions regarding the transportation planning process.

The Intermodal Technical Committee is comprised of representatives whose skills and training are more technical in nature and necessary to undertake comprehensive transportation planning activities for the Jackson Urbanized Area. Representatives from each of the county and municipal jurisdictions located in the Jackson MPO planning area are included on this committee, as well as representatives of all transportation modes in the area, including streets/highways, public transportation, bicycling/walking, air transportation, rail, and the trucking industry. The Technical Committee serves as an advisory committee to the Metropolitan Planning Policy Committee on all matters relating to the transportation planning process.

Jackson MPO

- Smoothed Urbanized Area Boundary
- Interstates
- Major Highways
- Major Local Roads

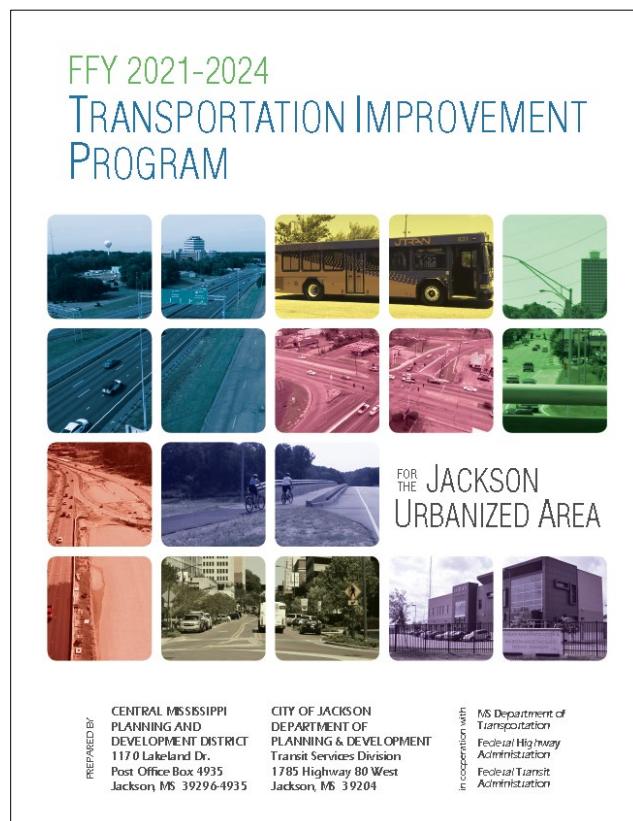

THE TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

The TIP is a financially constrained four-year program for addressing short-term transportation priorities that are consistent with the Jackson Urbanized Area's Metropolitan Transportation Plan (MTP). The TIP provides the opportunity to select projects that will implement the transportation planning goals expressed in the MTP. In order for a project to be eligible to receive Federal Transportation Program funding and be included in the TIP, it must be included in the MTP's list of priority projects.

The federal funding used to implement the TIP is administered through the FHWA and the FTA. The amount of federal funding each State receives from the FHWA and FTA is based on the State's total population as a ratio of the nation's total population. Each MPO in the State receives its own apportionment from this allocation based off of a similar ratio that compares the population of the urbanized area in the State to the State's total population.

TIP projects funded through FHWA are generally funded using an 80%/20% federal to state/local-match ratio. There are some exceptions to this matching requirement including safety-related projects and some projects funded through congressional earmarks which may receive up to 100% federal funding. FTA funded capital projects also are typically funded using the same 80%/20% federal to state/local matching ratio while funding for transit operating assistance may be funded at a 50%/50% matching ratio.

For a project to be considered for inclusion in the TIP, a commitment from the sponsoring agency to provide the requisite local matching funds is required. The projects included in this obligation report are consistent with those identified in the Jackson MPO's TIP. The MPO's current TIP for Fiscal Years 2021 – 2024 was adopted by the Metropolitan Planning Policy Committee on August 12, 2020.

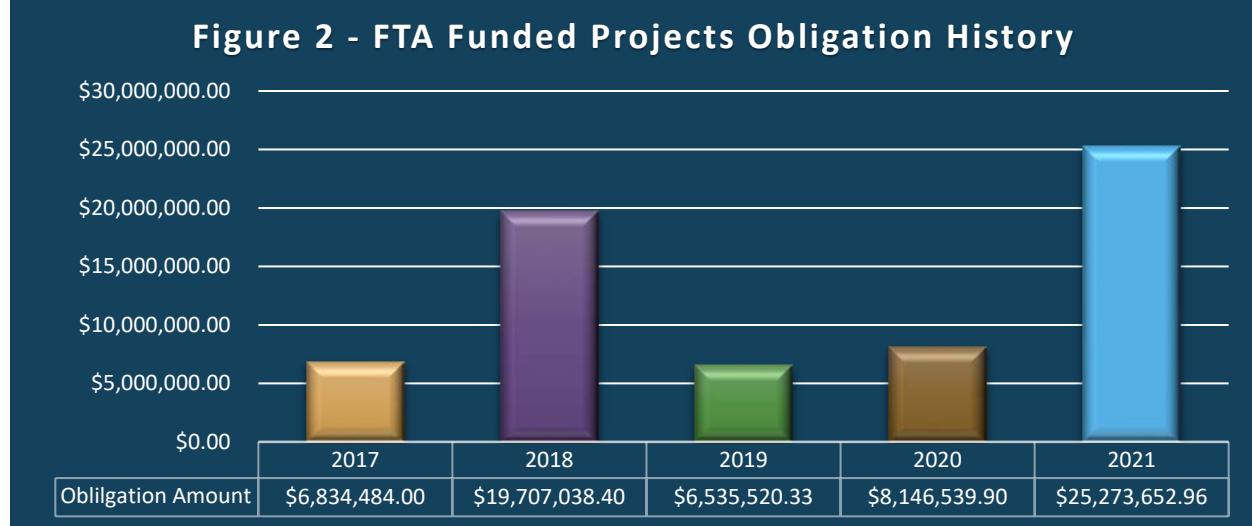

OBLIGATION HISTORY (FISCAL YEARS 2017-2021)

This section is intended to provide a comparison of the amount of FHWA and FTA project obligation that occurred over the last five (5) years from Federal Fiscal Years 2017 to 2021. The total amount of funds obligated using FHWA funding programs totaled slightly over \$99.6 million during Fiscal Year 2021. Over the five (5) year period 2017 saw the largest amount of project obligation at slightly over \$249 million with 2018 seeing the smallest amount of obligation at close to \$59 million. The amount of FHWA obligated funds decreased by 14.7% between Fiscal Years 2020 and 2021.

Figure 1 - FHWA Funded Projects Obligation History

For projects obligated using FTA funding the largest amount of project obligation was during Fiscal Year 2021 at \$25.2 million with the smallest amount of obligation occurring during Fiscal Year 2019 at \$6.5 million. The amount of FTA obligated funds between Fiscal Years 2020 and 2021 increased by over 200%.

Figure 2 - FTA Funded Projects Obligation History

OBLIGATIONS BY PROJECT TYPE

Projects obligated in the Jackson Urbanized Area during Federal Fiscal Year 2021 will aid in addressing transportation system priorities identified by the Jackson MPO including needed safety improvements, maintenance of existing infrastructure, congestion reduction and system reliability improvements. Obligated project types in the Jackson MPO planning area include bicycle and pedestrian, bridge, rail, road, safety, and transit. Road projects include pavement maintenance, capacity improvements to existing roadways, construction of new roadways and geometric improvements that improve free flow traffic conditions. Similarly, safety improvements include upgrades to existing traffic signal equipment, installation of new traffic signals and geometric improvements focused on reducing crashes. The project type with the largest amount of total funding obligations in the MPO Planning Area for Federal Fiscal Year 2021 was road projects at over \$82.6 million or 66.4% (Table 1). Transit projects were the second largest obligated amount at over \$25.2 million or 20.3% of the total obligation. Table 1 and Figure 3 show a breakdown of obligations by project type for October 1, 2020 – September 30, 2021.

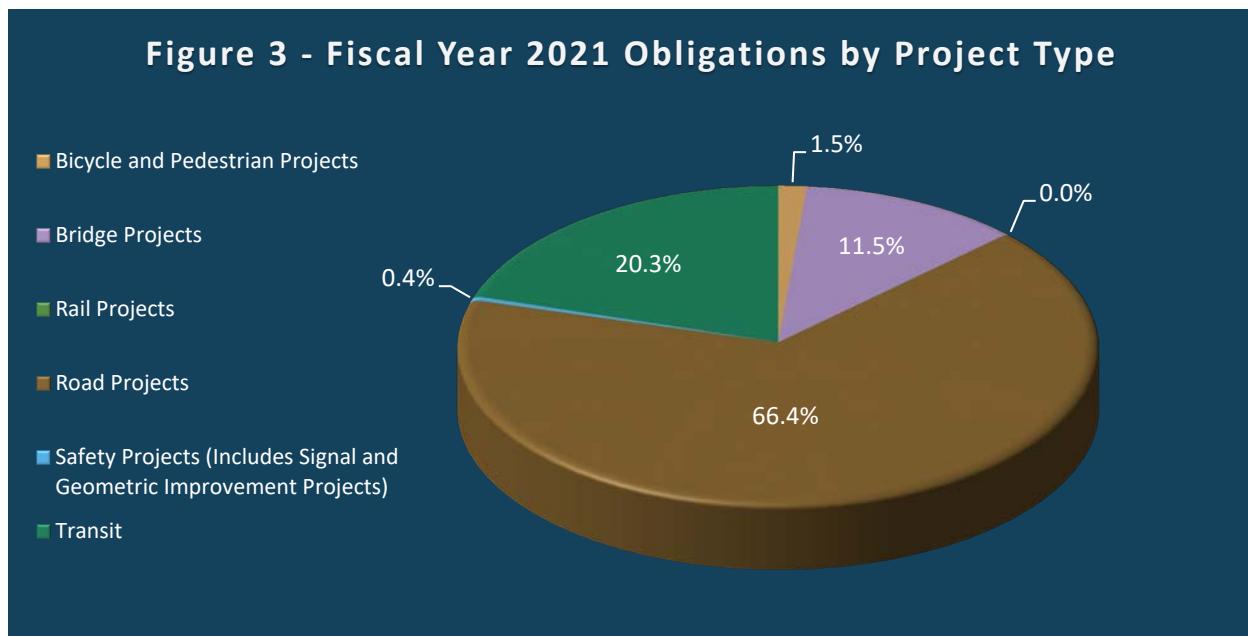

Table 1 – Fiscal Year 2021 Obligations by Project Type

Project Type	FHWA/FTA Obligated Funds	Percentage of Obligation
Bicycle and Pedestrian Projects	\$1,819,775.00	1.5%
Bridge Projects	\$14,278,636.00	11.5%
Rail Projects	\$9,000.00	0.0%
Road Projects	\$82,633,412.00	66.4%
Safety Projects (Includes Signal and Geometric Improvement Projects)	\$481,680.00	0.4%
Transit	\$25,273,652.96	20.3%
TOTAL	\$124,496,155.96	100.0%

OBLIGATIONS BY FUNDING PROGRAM

There are multiple funding sources identified in this report used by the Jackson MPO, MDOT and the City of Jackson (the Jackson Urbanized Area's designated transit services provider) to implement transportation projects that focus on improving transportation mobility in the Jackson Urbanized Area. The types of projects eligible to use these funding sources vary as project eligibility is program specific. In general, eligible project types include construction of new roadways, maintenance and expansion of existing roadways, safety improvements, maintenance and construction of bridges, transit service projects and maintenance and expansion of bicycle and pedestrian facilities.

Figure 4 and Table 2 each provide a breakdown of FHWA federal fund obligations by funding program for Fiscal Year 2021. The FHWA funding program with the largest amount of total funding obligations in the MPO Planning Area for Fiscal Year 2021 was the Surface Transportation Block Grant (STBG) Program with \$54.4 million or 54.6% of the total obligation. The second largest obligated amount was from the National Highway Performance Program (NHPP) at slightly over \$35.7 million or 35.9% of the total obligation.

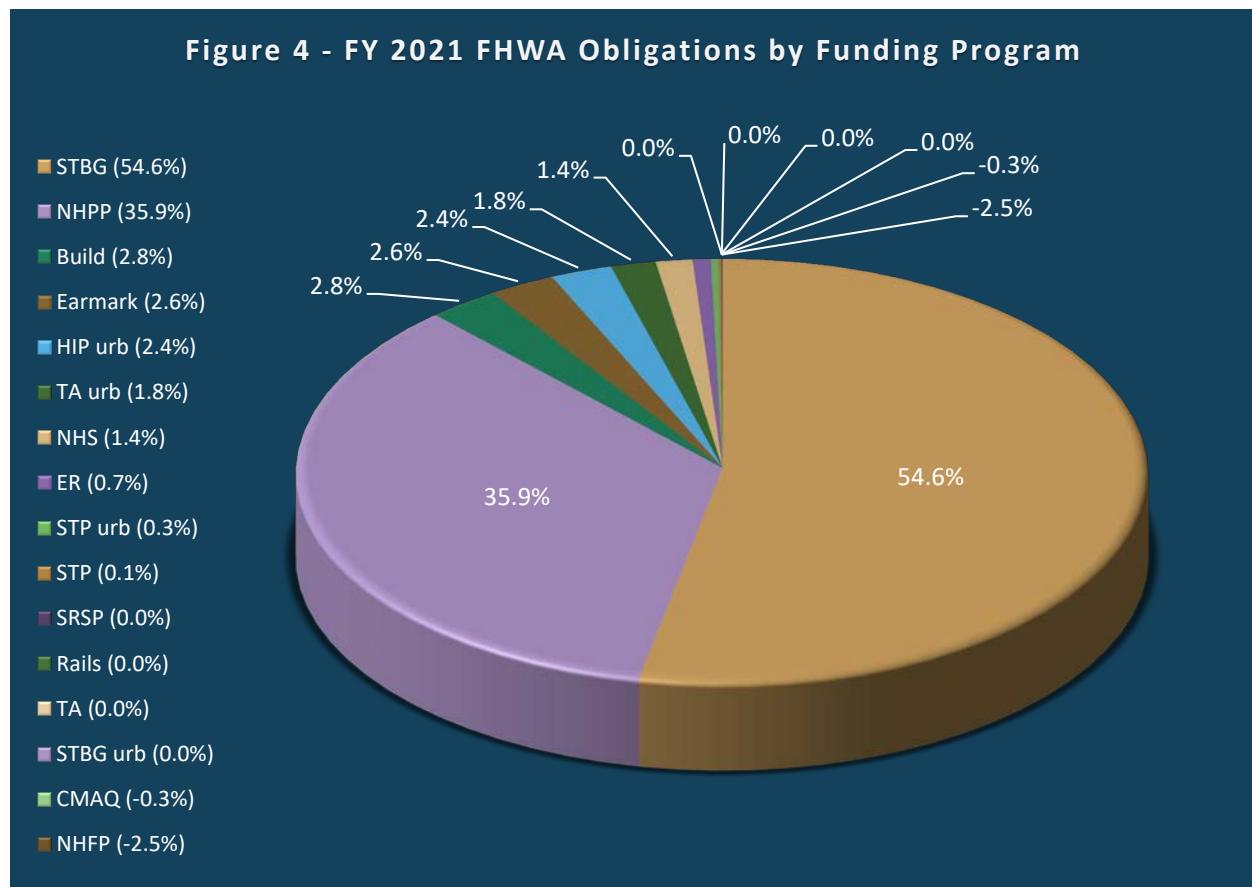

Table 2 – Fiscal Year 2021 FHWA Obligations by Funding Program

FHWA Funding Program	FHWA Obligated Funds	Percentage of Obligation
Surface Transportation Block Grant (STBG)	\$54,440,811.00	54.6%
National Highway Performance Program (NHPP)	\$35,751,626.00	35.9%
Better Utilizing Investments to Leverage Development (BUILD)	\$2,800,000.00	2.8%
Earmark	\$2,638,224.00	2.6%
Highway Improvement Program - Urban (HIP urb)	\$2,436,466.00	2.4%
Transportation Alternatives – Urban (TA urb)	\$1,779,209.00	1.8%
National Highway System (NHS)	\$1,445,062.00	1.4%
Emergency Relief (ER)	\$720,444.00	0.7%
Surface Transportation Program – Urban (STP urb)	\$284,525.00	0.3%
Surface Transportation Program (STP)	\$125,254.00	0.1%
Safe Routes to School Program (SRSP)	\$40,566.00	0.0%
Rails	\$9,000.00	0.0%
Transportation Alternatives (TA)	\$0.00	0.0%
Surface Transportation Block Grant – Urban (STBG urb)	\$0.00	0.0%
Congestion Mitigation and Air Quality Improvement Program (CMAQ)	(\$347,043.00)	-0.3%
National Highway Freight Program (NHFP)	(\$2,448,666.00)	-2.5%
TOTAL	\$99,675,478.00	100.0%

Items in red indicate a reduction in funds for the respective funding category. These reductions can be for a number of reasons including, but not limited to: the amount of funding required to complete projects using this funding type was less than the amount of funds committed to each respective project, a change in funding type or a project sponsor requested to withdraw the project.

For FTA funded projects the FTA-5307 program had the largest amount of total obligation at over \$15.5 million and 61.4% respectively. Figure 5 and Table 3 below each provide a breakdown of FTA federal fund obligations by funding program for Fiscal Year 2021.

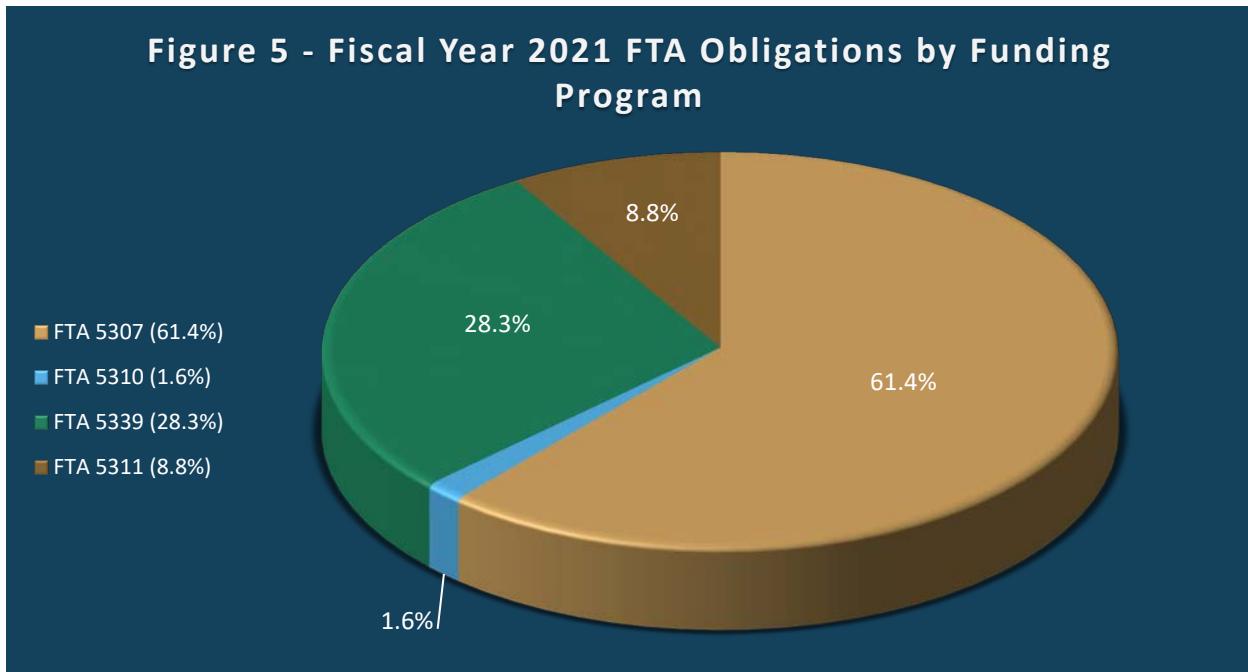

Table 3 – Fiscal Year 2021 FTA Obligations by Funding Program

FTA Funding Program	FTA Obligated Funds	Percentage of Obligation
Urbanized Area Formula Grant Program (FTA-5307)	\$15,512,232.36	61.4%
Enhanced Mobility of Seniors and Individuals with Disabilities (FTA-5310)	\$406,410.00	1.6%
Rural Area Program (FTA-5311)	\$2,212,894.00	8.8%
Bus and Bus Facilities (FTA-5339)	\$7,142,116.60	28.3%
TOTAL	\$25,273,652.96	100.0%

FUNDING PROGRAM DESCRIPTIONS

Tables 4 and 5 provide descriptions for the FHWA and FTA funding programs for which transportation funds were obligated during Fiscal Year 2021. The tables include the funding program name, acronym used to reference the program and a brief description.

Table 4 - FHWA Funding Programs

Funding Program	Acronym	Description
Better Utilizing Investments to Leverage Development	BUILD	BUILD grant funding is awarded on a competitive basis nationally for projects that will have a significant local or regional impact. BUILD funding can be used to support improvements to or development of roads, bridges, transit, rail, ports or intermodal transportation.
Congestion Mitigation and Air Quality Improvement Program	CMAQ	The Congestion Mitigation and Air Quality Improvement Program (CMAQ) provides funding for transportation projects and programs to help meet the requirements of the Clean Air Act. Funding is available to reduce congestion and improve air quality for areas that do not meet the National Ambient Air Quality Standards for ozone, carbon monoxide, or particulate matter (nonattainment areas) and for former nonattainment areas that are now in compliance (maintenance areas). If a state has no ozone or carbon monoxide non-attainment or maintenance areas (Mississippi has none), the funds may be used for Surface Transportation Block Grant (STBG) or CMAQ eligible purposes.
Earmarks	Earmark	Funds appropriated by Congress for specific projects including any anticipated grants awarded to MDOT, Office of State Aid Road Construction, or local entities.
Emergency Relief	ER	Congress authorized in Title 23, United States Code, Section 125, a special program from the Highway Trust Fund for the repair or reconstruction of Federal-aid highways and roads on Federal lands which have suffered serious damage as a result of (1) natural disasters or (2) catastrophic failures from an external cause. This program, commonly referred to as the emergency relief or ER program, supplements the commitment of resources by States, their political subdivisions, or other Federal agencies to help pay for unusually heavy expenses resulting from extraordinary conditions.
Highway Infrastructure Program	HIP/ HIP urb	The funds resulting from this apportionment are eligible to be obligated as follows: construction of highways, bridges, tunnels, including designated routes of the Appalachian development highway system and local access roads under section 14501 of title 40, U.S.C. The funds may also be obligated for the elimination of hazards and the installation of protective devices at railway-highway crossings. HIP urb projects are those funded using HIP funds apportioned to the Jackson MPO.
National Highway Freight Program	NHFP	The FAST Act established the NHFP to improve the efficient movement of freight on the National Highway Freight Network (NHFN) and support several goals, including: investing in infrastructure and operational improvements that strengthen economic competitiveness, reduce congestion, reduce the cost of freight transportation, improve reliability, and increase productivity; improving the safety, security, efficiency, and resiliency of freight transportation in rural and urban areas; improving the state of good repair of the NHFN; using innovation and advanced technology to improve NHFN safety, efficiency, and reliability; improving the efficiency and productivity of the NHFN; improving State flexibility to support multi-State corridor planning and address highway freight connectivity; and reducing the environmental impacts of freight movement on the NHFN.

Note: 100% Federal funding can be applied to some funding sources per 23 USC (c) as applicable

Table 4 - FHWA Funding Programs Cont'd.

Funding Program	Acronym	Description
National Highway Performance Program	NHPP	Provides for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a state's asset management plan for the NHS.
National Highway System	NHS	The National Highway System (NHS) consists of roads designated by the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 to be important to interstate travel and national defense. The NHS also includes roads that connect other modes of transportation (airports, water ports and railroads) and provide essential paths for international commerce.
Rail-Highway Crossings Program	Rails	The Railway-Highway Crossings program provides funds for safety improvements to reduce the number of fatalities, injuries, and crashes at public railway-highway grade crossings.
Safe Routes to School Program	SRSP	Funds are made available for infrastructure and non-infrastructure projects, and to administer Safe Routes to School programs that benefit elementary and middle school children in grades K-8.
Surface Transportation Block Grant Program	STBG/ STBG urb	The FAST Act converts the long-standing Surfacing Transportation Program into the Surface Transportation Block Grant program allowing flexible funding to best address State and local transportation needs. STP funds can be used on a variety of projects including roadway and bridge preservation, modernization, and expansion on the Federal-aid System. STBG urb projects are those funded using STBG funds apportioned to the Jackson MPO.
Surface Transportation Program	STP/ STP urb	STP funds may be used for projects on the Federal-aid System, which include the National Highway System and all other roads that are eligible to receive Federal-aid funding. STP funds have been used on several large highway programs that the State of Mississippi has adopted. They include the <i>1987 Four-Lane Highway Program</i> , the <i>Gaming Roads Program</i> , and the <i>Vision 21 Program</i> . STP funds can be used on a variety of projects including roadway and bridge preservation, modernization, and expansion on the Federal-aid System. This program was eliminated by the FAST Act and replaced by the Surface Transportation Block Grant Program. STP urb projects are those funded using STP funds apportioned to the Jackson MPO.
Transportation Alternatives	TA/ TA urb	The set-aside TA funds can be used on all projects and activities that were previously eligible under TAP. TA urb projects are those funded using TA funds apportioned to the Jackson MPO.

Note: 100% Federal funding can be applied to some funding sources per 23 USC (c) as applicable

Table 5 - FTA Funding Programs

Funding Program	Acronym	Description
Urbanized Area Formula Grant Program	FTA-5307	Provides funding for capital and operating assistance for transit operations in urbanized areas with populations greater than 50,000. Funds can be used for transportation related planning, engineering, design and evaluation of transit projects and other technical transportation-related studies; capital investments in bus and bus-related activities such as replacement of buses, overhaul of buses, rebuilding of buses, crime prevention and security equipment and construction of maintenance and passenger facilities; computer hardware/software; and operating assistance in urbanized areas under 200,000 in population or with 100 or fewer fixed-route buses operating in peak hours. Activities eligible under the former Job Access and Reverse Commute (JARC) program, which provided services to low-income individuals to access jobs, are now eligible under the Urbanized Area Formula program.
Enhanced Mobility of Seniors and Individuals with Disabilities	FTA-5310	This program supports transportation services planned, designed, and carried out to meet the special transportation needs of seniors and individuals with disabilities. Eligible activities include both traditional capital investment and nontraditional investment beyond the Americans with Disabilities Act (ADA) complementary paratransit services. Eligible activities for FTA 5310 funding include: buses and vans, wheelchair lifts, ramps, securement devices, transit-related information technology systems including scheduling/routing/one-call systems; mobility management programs, volunteer driver programs, building an accessible path to a bus stop including curb-cuts, sidewalks, accessible pedestrian signals or other accessible features.
Rural Area Program	FTA-5311	This program provides funding to states and federally recognized Indian tribes to support public transportation in rural areas with populations less than 50,000. Funding can be used for planning, capital, operations, job access and reverse commute projects, and the acquisition of public transportation services.
Bus and Bus Facilities	FTA-5339	Provides capital funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities including technological changes or innovations to modify low or no emission vehicles or facilities.

Note: 100% Federal funding can be applied to some funding sources per 23 USC (c) as applicable

REPORT DATA

This report was developed using data provided to the Jackson MPO by the MDOT and the City of Jackson. The report includes a summary of the projects obligated in Federal Fiscal Year 2021 broken down between FHWA and FTA funded projects as can be seen in Tables 7 and 8. While federal funding is included in this report, no local or state funds are reported.

Each project included in Tables 7 and 8 contains a brief project description, type of funding used for the project, amount of federal funds obligated, for whom the funds were obligated and date of obligation. In addition, most projects include an FMS and External number; these numbers are unique to the MDOT, FHWA and FTA and used to improve tracking of projects and project funds. Table 6 below is provided as a reference to better understand the obligated projects information included in Tables 7 and 8.

Table 6 – Obligated Projects Report Column Descriptions

Column Heading	Description
Date signed by FHWA/FTA	Date of Federal approval to proceed
FMS Number	State identification number assigned for tracking project
External Number	Federal identification number assigned for tracking project
TIP/STIP Reference	Individually listed project number or project grouping assigned by the MPO or MDOT in the TIP/STIP
County	The County or Counties where the project is located
For Whom	Agency responsible for project implementation
Description	Project location and a brief summary of the work being completed
Action	Action that was taken on the project
Funding Program	Federal funding source
Federal Funds Change	Amount of federal funding obligated or de-obligated for the project
Total Funds in TIP*	Amount of federal funding programmed for the project in the TIP

*Note: The amount shown in this column only reflects projects funded through the Jackson MPO

**Table 7 - Jackson Urbanized Area
Fiscal Year 2021 FHWA Obligated Projects**

Date signed by FHWA	FMS Number	External Number	TIP/STIP Reference	County	For Whom	Description	Action	Funding Program	Federal Funds Change	Total Funds in TIP*
